**Available in Single or Three Phase (Single Pictured)**

**Available in 60, 50, or 400 Hz**

- Industrial Engine CARB AND EPA CERTIFIED
- 1800 RPM Operation for long life
- Alternating Current Brushless Generator with Automatic Voltage Regulator
- Main Line Set Mounted Circuit Breaker
- Powder Coated Sound Attenuated Enclosure with Vibration Isolators
- HIGH AMBIENT Radiator Cooled with Blower Fan, Fan Guards
- Dry Type Air Cleaner Spin on Lube Oil Filter, Spin on Fuel & Oil Filters
- 12VDC Starting Motor, 40 AMP 12VDC Battery Charging Alternator
- Safety Shutdowns for High Water Temperature and Low Oil Pressure
- Critical Exhaust Silencer with Stainless Steel Exhaust Flex
- Single Touch Start/Stop Switch
- Convenient Single Side Service
- Corrosion Resistant Paint and Polyester Powder Coat
- 12VDC Fuel Pump with Fuel block for easy connection
- Locking Access Panels

COOLING AIR FLOW ENTERS FROM THE BOTTOM OF THE BASE PAN

HEATED AIR IS EXPELLED HORIZONTALLY THROUGH THE RADIATOR

**SPECIFICATIONS:**

**LENGTH: 49.4 "**

**HEIGHT: 29.75"**

**WIDTH: 23.7"**

**1150#**

**2.0 G.P.H. AT FULL LOAD**

**1 G.P.H AT HALF LOAD**

**Quiet, Dependable Power**

Power Tech products are the pinnacle of perfection in power generation. We are one of the world's leading manufacturers and suppliers of mobile diesel generators. We offer an expansive generator selection ranging from 3KW to 300 KW for standby, marine generators, military projects and gas/diesel electric vehicles. Our products are distributed worldwide from our manufacturing base in Leesburg, Florida.
